Con Touch Evo, la collezione Touch si arricchisce di un elemento che, a rivestimento, non ha mai smesso di esercitare il suo fascino: il colore.

Si tratta di tinte acquarellate, che restituiscono l'autentico sapore delle resine colorate, monocromatiche ma niente affatto compatte. Le 4 tinte della collezione dispiegano infatti una rosa di toni molto vicini tra loro. Ciò genera, all'interno di quelle che parrebbero tinte unite, un grande dinamismo cromatico.

Il decoro Tropical presenta un motivo botanico che propone tutti i colori della gamma, coi quali è abbinabile in modo trasversale.

Il decoro Charme si esprime sia in orizzontale sia in verticale. Omaggia le decorazioni tipiche delle carte da parati, per valorizzare nicchie e quinte decorative con inserti posati a tutta altezza.

With Touch Evo, the Touch collection is enriched by an element that, as a covering, has never ceased to exert its charm: colour. It is a matter of watercolors, which give back the authentic flavour of colored resins, monochrome, but not at all compact. In fact, the 4 colors of the collection display a range of tones that are very close to each other. This generates, within what would appear to be solid colors, a great chromatic dynamism. The Tropical decoration features a botanical motif that offers all the colours of the range, with which it can be combined in a transversal way. The Charme decoration is expressed both horizontally and vertically. It pays homage to the typical decorations of wallpaper, to enhance niches and decorative wings with inserts covering the entire height.

Avec Touch Evo, la collection Touch s'enrichit d'un élément qui, en tant que revêtement, n'a jamais cessé d'exercer son charme : la couleur. Il s'agit de couleurs pastelles, et qui restituent la saveur authentique des résines colorées, monochrome mais pas du tout compact. En effet, les 4 couleurs de la collection affichent une rose dans des tons très proches les uns des autres. Cela génère, dans ce qui semblerait être des couleurs unies, un grand dynamisme chromatique. La décoration Tropicale présente un motif botanique qui offre toutes les couleurs de la gamme, avec laquelle elle peut être coordonnée de manière transversale. La décoration Charme s'exprime à la fois en sens horizontal, et vertical. Il rend hommage à certains papiers peints, pour enrichir des niches et des ailes décoratives à toute hauteur, toute surface.
